SEQUOIA
Ecological Consulting, Inc.

CAPABILITIES STATEMENT

About Sequoia Ecological Consulting

Integrated biological, permitting, and project management services—from planning stages through mitigation monitoring.

Founded in 2011, Sequoia Ecological Consulting, Inc. (Sequoia) provides biological and ecological consulting services to public agencies, utilities, consultants, contractors, and private clients throughout California. From our offices in Contra Costa, San Diego, and Sacramento Counties, Sequoia helps our clients minimize project impacts on biological resources, supporting them with analysis and planning, permitting strategy and applications, monitoring, and reporting to satisfy the requirements of varied complex permits.

Sequoia's team includes environmental planners, wildlife biologists, botanists, construction monitors, restoration specialists, herpetologists, permitting specialists, and aquatic biologists—all of whom are experienced in the evaluation of biological resources at all levels.
